

CURRICULUM VITAE

Carlton M. Caves

2020 October 21

CV, updated monthly, is available at <http://info.phys.unm.edu/~caves/vita.pdf>.

PERSONAL

Office address: Center for Quantum Information and Control
MSC07-4220
1 University of New Mexico
Albuquerque, New Mexico 87131-0001

Home address: 22 Eagle Nest Court NE
Albuquerque, New Mexico 87122-2025

Office phone: (505) 277-1850
Mobile phone: (505) 350-8963

E-mail: ccaves@unm.edu
URL: <http://info.phys.unm.edu/~caves>
Birth date: 1950 October 24

HIGHER EDUCATION

Rice University, 1968-9 to 1972-5
BA in Physics and Mathematics, summa cum laude, 1972
California Institute of Technology, 1972-9 to 1979-5
PhD in Physics, 1979 (thesis supervisor: Kip S. Thorne)

PRESENT POSITIONS

Distinguished Professor Emeritus and Research Professor of Physics and Astronomy, University of New Mexico, 2018-7 to present

PREVIOUS POSITIONS

Graduate Research Assistant, California Institute of Technology, 1975-10 to 1976-9 and 1977-10 to 1979-5
Research Fellow in Physics, California Institute of Technology, 1979-5 to 1981-12
Senior Research Fellow in Theoretical Physics, California Institute of Technology, 1982-1 to 1987-11
Associate Professor of Electrical Engineering/Electrophysics (and Physics, beginning 1989-9), University of Southern California, 1987-12 to 1992-7
Professor of Physics and Astronomy, University of New Mexico, 1992-8 to 2006-7
Distinguished Professor, University of New Mexico, 2006-8 to 2018-6
Director, Center for Quantum Information and Control, University of New Mexico, 2009-8 to 2018-6

TEMPORARY AND VISITING POSITIONS

Member, Institute for Theoretical Physics, University of California, Santa Barbara, 1984-1 to 1984-6, 1996-8 to 1996-12, 2001-8 to 2001-12, 2013-1 to 2013-2
Lecturer, California Institute of Technology, 1984-10 to 1985-9
Visiting Associate in Physics, California Institute of Technology, 1987-12 to 1993-1
Visiting Professor, Santa Fe Institute, 1992-9 to 1992-12
Director, Center for Advanced Studies, University of New Mexico, 1993-7 to 1996-6
Visiting Scholar, School of Mathematics and Physics, University of Queensland, 2007-8 to 2008-7
Visiting Professor, School of Mathematics and Physics, University of Queensland, 2011-2 to 2017-6

FIELDS OF RESEARCH SPECIALIZATION

Physics of information; information, entropy, and complexity; quantum information theory; quantum metrology; quantum chaos; quantum control
Quantum optics; theory of nonclassical light
Theory of quantum noise; quantum theory of measurement

PROFESSIONAL SOCIETIES

Member, US National Academy of Sciences (elected 2020)
Fellow, American Physical Society
Fellow, American Association for the Advancement of Science
Member, American Association of Physics Teachers

BOARD MEMBERSHIPS

Member, Board of Directors, Audubon New Mexico, 2012–2017

AWARDS, SCHOLARSHIPS, AND FELLOWSHIPS

Phi Beta Kappa, 1971
National Science Foundation Predoctoral Fellow, 1972–10 to 1975–9
Richard P. Feynman Fellow, Caltech, 1976–10 to 1977–9
First Öcsi Bácsi Fellow, Caltech, 1976–1977
Einstein Prize for Laser Science, Society for Optical and Quantum Electronics, 1990
Excellence in Teaching Award, UNM Department of Physics and Astronomy, 1998–1999, 1999–2000, and 2004–2005
Max Born Award, Optical Society of America, 2011
Lifetime Achievement Award, New Mexico International Year of Light Celebration, 2015
Quantum Communication Award, International Conference on Quantum Communication, Measurement and Computing (QCMC), 2018

TEACHING (since 2015)

Quantum Information Theory, one-semester graduate-level course, spring semester 2017
Mathematical Methods of Physics, one-semester upper-division course, fall semester 2015 and fall semester 2016

UNIVERSITY SERVICE (since 2015)

Faculty Search Committee, Department of Physics and Astronomy, 2017–2018

EXTERNAL SERVICE (since 2015)

Friend of the American Physical Society, University of New Mexico, 2006–2018
External Reviewer, Department of Physics, University of Arkansas, 2015 February 9–10
Member, Steering Committee for Biennial Conferences on Quantum Communication, Measurement and Computing (QCMC), 2012–2016
Divisional Associate Editor, *Physical Review Letters*, 2012–9 to 2018–8
Member, Search Committee, American Physical Society Editor-in-Chief, spring 2016
Member, Editorial Advisory Board, *American Journal of Physics*, 2018–1 to 2020–12
Member, Search Committee, Lead Editor of *Physical Review A*, 2018–5 to 2018–10
Co-organizer, Quantum Gates, Jumps and Machines: A Conference in Honour of Gerard Milburn's 60th Birthday, Brisbane, 2018–10
2020 Outstanding Referee, American Physical Society journals
Co-chair, Physics Next Workshop on Scientific Publication and Research Dissemination, Riverhead, Long Island, delayed till perhaps 2021–6

INVITED TALKS AND LECTURES (since 2015)

- Invited speaker, NIST/DARPA Workshop on Fundamental Limits to Photodetection, Arlington, Virginia, 2015–1
- Discussion Leader, Gordon Conference on Quantum Control of Light and Matter, Mt. Holyoke College, Massachusetts, 2015–8
- Invited speaker, Quantum Computing: Beginnings to Current Frontiers (Symposium in honor of Paul Benioff’s contribution to quantum computing), Argonne National Laboratory, 2016–5
- Invited speaker, Quantumness: A Celebration of Luiz Davidovich’s Research Career on his 70th Birthday, Rio de Janeiro, 2016–6
- Invited speaker, Thirteenth International Conference on Quantum Communication, Measurement, and Computing (QCMC 2016), Singapore, 2016–7
- Invited speaker, QIM IV: Quantum Technologies, Université Pierre et Marie Curie, Paris, 2017–4
- Arfken Physics Scholar-in-Residence, Miami University, Oxford, Ohio, 2017–4
- Plenary speaker, Conference on Quantum Information and Quantum Control VII, Toronto, 2017–8
- Invited speaker, Quantum Information Processing 2018, Technical University of Delft, 2018–1
- Invited speaker, Gordon Conference on Mechanical Systems in the Quantum Regime, Ventura, California, 2018–3
- 2018 Quantum Communication Award lecturer, International Conference on Quantum Communication, Measurement and Computing (QCMC), Louisiana State University, 2018–3
- Hearne Eminent Lecturer, Hearne Institute for Theoretical Physics, Louisiana State University, 2018–3
- Invited speaker, Quantum Gates, Jumps and Machines: A Conference in Honour of Gerard Milburn’s 60th Birthday, Brisbane, 2018–10
- Plenary speaker, New Technologies for Discovery IV: The CPAD Instrumentation Frontier Workshop 2018, Brown University, Providence, 2018–12
- Invited lecturer, Quantum-Enhanced Sensing via Quantum Control (QuSCo) First Winter School, Saarbrücken, Germany, 2019–3 (four lectures on quantum metrology)
- Plenary speaker, 26th Central European Workshop on Quantum Optics, Paderborn University, Germany, 2019–6
- Invited speaker, Workshop on Quantum Foundations and Quantum Information, Quantum Science and Technology–Argentina 2019, Puerto Madryn, Argentina, 2019–10

PUBLICATIONS

I. Book-length publications

A. PhD thesis

Theoretical Investigations of Experimental Gravitation, submitted to the California Institute of Technology on 1979 May 8.

B. Disciplinary reports

1. K. Bartschat, D. Blume, C. M. Caves, and I. H. Deutsch, *Theoretical Atomic, Molecular, and Optical Physics: Recent Developments and a Vision for the Future* (American Institute of Physics, New York, 2012).

C. Edited conference proceedings

1. *Quantum Communication, Computing, and Measurement*, edited by O. Hirota, A. S. Holevo, and C. M. Caves (Plenum, New York, 1997).

II. Technical articles

Web of Science (Publons) has 142 research articles, with 16,283 citations (in the Web of Science Core Collection), 115 citations/article, h-index 54, 10h-index 18, and 100h-index 6. Google Scholar finds over 200 publications, but there are no citations after the first 160 or so; GS has 26,200 total citations, h-index 67, 10h-index 23, and 100h-index 7. This citation record comes almost entirely from publishing in journals whose objective is to disseminate good science, not in journals whose objective is to sell magazines.

A. Technical articles in refereed journals

1. D. L. Lee, C. M. Caves, W.-T. Ni, and C. M. Will, “Theoretical frameworks for testing relativistic gravity. V. Post-Newtonian limit of Rosen’s theory,” *Astrophysical Journal* **206**, 555–558 (1976).
2. V. B. Braginsky, C. M. Caves, and K. S. Thorne, “Laboratory experiments to test relativistic gravity,” *Physical Review D* **15**, 2047–2068 (1977).
3. K. S. Thorne, R. W. P. Drever, C. M. Caves, M. Zimmermann, and V. D. Sandberg, “Quantum nondemolition measurements of harmonic oscillators,” *Physical Review Letters* **40**, 667–671 (1978).
4. C. M. Caves, “Microwave cavity gravitational radiation detectors,” *Physics Letters* **80B**, 323–326 (1979).
5. C. M. Caves, “Gravitational radiation and the ultimate speed in Rosen’s bimetric theory of gravity,” *Annals of Physics* **125**, 35–52 (1980).
6. C. M. Caves, K. S. Thorne, R. W. P. Drever, V. D. Sandberg, and M. Zimmermann, “On the measurement of a weak classical force coupled to a quantum-mechanical oscillator. I. Issues of principle,” *Reviews of Modern Physics* **52**, 341–392 (1980).
7. C. M. Caves, “Quantum-mechanical radiation-pressure fluctuations in an interferometer,” *Physical Review Letters* **45**, 75–79 (1980). Reprinted in *Nonclassical Effects in Quantum Optics*, edited by D. F. Walls and P. Meystre (American Institute of Physics, New York, 1991), pages 268–272.
8. C. M. Caves, “Quantum-mechanical noise in an interferometer,” *Physical Review D* **23**, 1693–1708 (1981). Reprinted in *Interferometry*, edited by P. Harihan (SPIE, Bellingham, Washington, 1991), pages 507–522; in *Photon Statistics and Coherence in Nonlinear Optics*, edited by J. Peřina (SPIE, Bellingham, Washington, 1991), pages 246–261; and in *Fundamentals of Quantum Optics*, edited by G. S. Agarwal (SPIE, Bellingham, Washington, 1994).
9. C. M. Caves, “Quantum limits on noise in linear amplifiers,” *Physical Review D* **26**, 1817–1839 (1982).
10. C. M. Caves and B. L. Schumaker, “New formalism for two-photon quantum optics. I. Quadrature phases and squeezed states,” *Physical Review A* **31**, 3068–3092 (1985).
11. B. L. Schumaker and C. M. Caves, “New formalism for two-photon quantum optics. II. Mathematical foundation and compact notation,” *Physical Review A* **31**, 3093–3111 (1985).
